WEBINAR SERIES

ANTHONY SEMANN - WEDNESDAY 24TH MARCH 2021

Documenting learning: More than photos and short story

Do you ever think about how it is best to document learning and what it take to move beyond a series of pretty pictures. Documentation is a way of celebrating young childrens learning but there is a craft to this and in this webinar we will explore how documenting learning moves from a time consuming task to a celebration of young children and learning. We will unpack the anatomy of documentation and share examples of what documentation looks like in the everyday.

Anthony Semann is primarily a presenter and researcher. His ability to deliver inspirational conference key notes and facilitate innovative and transformative professional development programs is renowned. His background is in education, research and management – in government, corporate and community based organisations.

Anthony's expertise as a researcher and his specialist knowledge of early education has seen him work across Australia, Asia, Europe, America , France and New Zealand. He has delivered hundreds of key notes and papers at conferences and over 15,000 professional development programs over the last 20 years.

Anthony challenges organisations and people. He asks them to reflect. To ask how their communication, their leadership, their values, their relationships and their workplace culture and diversity affect what they do. He asks them to reflect because it is these things that affect their services, businesses and ultimately the community.

The Webinar will be facilitated through Zoom. Attendees will receive a link to access the webinar upon registration.

TIME: 6.30pm to 8.00pm
